Public Discussion

The following ACI draft standard is open for public discussion. It is being processed through ACI's ANSI-approved standardization procedures and is not yet an official ACI standard. To see a summary of all ACI draft standards in process or recently completed within the past 3 months, please visit **www.discussion.concrete.org**.

Document number	Title	Open for discussion	Discussion closes
349	Code Requirements for Nuclear Safety-Related Concrete Structures (ACI 349) and Commentary	11/1/2012	12/17/2012

Proposed Standards "Code Requirements for Nuclear Safety-Related Concrete Structures (ACI 349) and Commentary"

The ACI Technical Activities Committee (TAC) approved processing the subject document through ACI's Normal Standardization Procedure in October 2011, as did the ACI Standards Board in September 2012.

Therefore, this draft document is open for public discussion from November 1, 2012, until December 17, 2012. The document appears on the ACI website, **www.discussion.concrete.org**.

Pertinent discussion will be available on ACI's website and announced in a future issue of *Concrete International* if received no later than December 17, 2012. Comments should be e-mailed to discussion@concrete.org or mailed to Shannon Banchero, Manager, Technical Documents, American Concrete Institute, 38800 Country Club Drive, Farmington Hills, MI 48331.

Public Discussion and Closure "Specifications for Environmental Concrete Structures (ACI 350.5)"

The ACI Technical Activities Committee (TAC) approved the draft standard subject to satisfactory committee response to TAC comments in November 2009. The committee responded adequately to TAC's comments and all balloting rules were met. On September 23, 2010, the Standards Board granted approval to release the draft standard for public discussion and to process it as an ACI standard. Public discussion was announced on December 1, 2010, and closed on January 17, 2011. The committee responded to the public discussion. TAC reviewed the closure and approved it on September 6, 2012. The Standards Board approved publication of the ACI standard on October 5, 2012.

The public discussion and the committee's response to the discussion are available on ACI's website, **www.concrete.org** (click on "Technical" on the menu bar, and then on "Upcoming Standards").
