

Public Discussion

The following ACI draft standard is open for public discussion. To see a summary of all ACI draft standards in process or recently completed within the past 3 months, please visit www.discussion.concrete.org.

Proposed Standard “Building Code Requirements and Specification for Masonry Structures”

The Masonry Standards Joint Committee (MSJC) (TMS 402 and 602-ACI Committee 530-ASCE 5 and 6) completed revisions to the 2011 “Building Code Requirements and Specification for Masonry Structures.” A summary of major proposed changes to this draft standard and a complete working draft of the proposed revisions can be accessed from the link below. If you wish to submit a comment on the provisions, please use the table provided in the link below by January 14, 2013. Pertinent discussion will be available on the TMS website: www.masonrysociety.org/html/committees/tech/msjc/MSJC_Public_Comment_Announcement_2012-11.htm.

Public Discussion and Closure “Specification for Bonding Hardened Concrete and Steel to Hardened Concrete with an Epoxy Adhesive”

The ACI Technical Activities Committee (TAC) approved the draft standard subject to satisfactory committee response to TAC comments in October 2011. The committee responded adequately to TAC’s comments and all balloting rules were adhered to. On August 1, 2012, the Standards Board granted approval to release the draft standard for public discussion and to process it as an ACI standard. Public discussion was announced on September 1, 2012, and closed on October 17, 2012. The committee responded to the public discussion. TAC reviewed the closure and approved it on November 20, 2012. The Standards Board approved publication of the ACI standard on December 5, 2012.

The public discussion and the committee’s response to the discussion are available on ACI’s website: www.concrete.org (click on “Technical” on the menu bar, and then on “Upcoming Standards”).

NEW! *Symposium Papers Subscription*

ACI is excited to present a new online subscription that provides unlimited access to new and archived papers from all Symposium Publications, while providing search functionality by date, topic, and author. The Symposium Papers Subscription provides 12 months of PDF access to over 6,000 papers published since 1962, plus any new papers that are published.

\$160 (ACI Members: \$95.00)
\$650.00 (Organization/Library Subscription)
