

Public Discussion

ACI draft standards open for public discussion that are being processed through ACI's ANSI-approved standardization procedures can be found at www.discussion.concrete.org. These are not yet official ACI standards.

Public Discussion and Closure of "Concrete Terminology"

On June 3, 2010, the Standards Board granted approval to release the draft standard for public discussion and to process it as an ACI standard. Public discussion was announced on July 1, 2010, and closed on August 17, 2010. The committee responded to the public discussion. TAC reviewed the closure and approved it on September 16, 2012. The Standards Board approved publication of the ACI standard on January 28, 2013.

The public discussion and the committee's response to the discussion are available on ACI's website, www.concrete.org (click on "Technical" on the menu bar, and then on "Upcoming Standards").
