

Public Discussion

The following ACI draft standard is open for public discussion. It is being processed through ACI's ANSI-approved standardization procedures and is not yet an official ACI standard. To see a summary of all ACI draft standards in process or recently completed within the past 3 months, please visit www.discussion.concrete.org.

Document number	Title	Open for discussion	Discussion closes
CT	ACI Concrete Terminology	7/1/2010	8/17/2010

PUBLIC DISCUSSION AND CLOSURE OF "SPECIFICATIONS FOR STRUCTURAL CONCRETE (ACI 301-10)"

The ACI Technical Activities Committee (TAC) approved the draft standard subject to satisfactory committee response to TAC comments in August 2009. The committee responded adequately to TAC's comments and all balloting rules were adhered to. On November 11, 2009, the Standards Board granted approval to release the draft standard for public discussion and to process it as a normal ACI standard. Public discussion was announced on December 1, 2009, and closed on January 17, 2010. The committee responded to the public discussion. TAC reviewed the closure and approved it on June 10, 2010. The Standards Board approved publication of the standard on June 22, 2010. The ACI Normal Standardization Procedure is complete. The standard will appear in the 2011 *ACI Manual of Concrete Practice* and will be available as a separate publication.

The public discussion and the committee's response to the discussion are available on ACI's Web site, www.concrete.org. Click on "Technical" on the menu bar, and then on "Upcoming Standards."
