R. N. Raikar Memorial International Conference & Gettu-Kodur International Symposium: The Third Edition

Keeping up to the spirit of the tradition of making a technology transfer, honouring ignited minds and keeping alive the memory of visionary Ramesh Raikar, the third edition of the globally-acclaimed R. N. Raikar Conference is being declared. In the sphere of construction Technology is becoming available that will speed analysis, potentially allowing a speedy construction, and the event addresses this factor.

Mark the date:

The third edition of the globally-acclaimed R. N. Raikar Conference series will be held in Mumbai, 14th - 15th December 2018. Conference Convenor, Dr. S. K. Manjrekar, made the official launch announcement in India and at various international platforms, including the recently concluded Detroit convention of American Concrete Institute (ACI) and the Association of Civil Engineering Conference in Merida, Mexico.

The intent:

The conference aims to introduce participants to cutting edge technologies in the field of concrete and concrete construction, and to facilitate technology transfer in appropriate areas.

Two towering personalities, Prof. Ravindra Gettu and Prof. Venkatesh Kodur will be felicitated by convening an international symposium in their honour. Engineers and concrete specialists across the world have already expressed their desire to attend the 3rd R. N. Raikar Memorial International conference and Gettu-Kodur International Symposium.

Organised by the India Chapter of American Concrete Institute (ICACI) and supported by its parent body ACI, the R. N. Raikar conference series has now become a regular 'looked forward to' event on the international calendar.

Conference Chair, Dr. Manjrekar announces the 3rd R. N. Raikar Memorial International conference and Gettu-Kodur International Symposium to a packed auditorium.

The things you can expect from the Conference:

- Participation of over 35 countries.
- Audience of over 600 engineers, scientists, professors, government officials, industry leaders and students.
- Technical articles from more than 70 international authors and matching Indian contributions.

Technical papers submitted by various participating countries at the last conference were evaluated by a world-wide editorial board for inclusion in the prestigious International Journal of Construction & Building Materials (IJC&B) and Alconpat Revista. ICACI is endeavouring to repeat this feature for the forthcoming conference.

Students from one of the biggest universities of Mexico 'University of Nuevo Leon' (UANL) in Monterrey greet Dr. Manjrekar.

EVENT

Dr. Manjrekar announces the launch of the 3rd R. N. Raikar conference.

- Panel discussions

The perfect point of announcement:

Continuing with its global blitz, the conference was also announced at one of the biggest universities of Mexico 'University of Nuevo Leon' (UANL) in Monterrey. Conference Convenor, Dr. Manjrekar highlighted the international popularity of the RNR conference series, and invited all the countries present in the forum to attend the conference.

Reaching out Globally:

Thus far ICACI teams have travelled to the USA, Canada, Mexico, UAE and Qatar to address the international concrete community. These efforts are bearing fruit as international experts, leading concrete bodies and concrete-themed publications have already started aligning with the

event.

'Revista Alconpat', the premium technical journal in Latin America and the Canadian Concrete society have already shown their interest to be associated with the event.

Conference Convenor - Dr. S. K. Manjrekar, ICACI President - Mr. Pankaj Shah, Mr. M. A. Jacob and Mr. Umesh Magar, Co-Chairs of the conference, along with Conference Mentors Prof. Surendra Shah, Prof. Mohan Malhotra, Prof. P. A. M. Basheer and Prof. Nengkumar Banthia invite you to this technical extravaganza.

- Student Chapter officially inaugurated at Kongu Engineering College, Tamil Nadu
- Student Chapter at Nandha Engineering College, Tamil Nadu, awaiting ACI approval
- ACI student programme promoted to:-
 - Chouksey Engineering College, Chhattisgarh
 - Lakhmi Chand Institute of Technology, Chhattisgarh
 - Kalinga Institute of Industrial Technology, Odisha
 - Andhra University College of Engineering, Andhra Pradesh
 - Heritage Institute of Technology, West Bengal
- Discussions held with Senior Faculty of:-
 - Indian Institute of Engineering Science and Technology, West Bengal
 - Yeshwantrao Chavan College of Engineering, Maharashtra
- Annual All India Student's Concrete Cube Test and Essay - prizes at the hands of ACI President.
