

CRACKING PRESENTATION

This topic is both a contentious and unfortunately common issue. Often, the key to addressing cracking is learning how to properly determine the cause of the crack so it can be mitigated and prevented in future projects.

Topics covered in this presentation will include:

- Causes and control of cracking
- Evaluation methods
- Mitigation
- Crack repair

ACI offers a wide range of resources and materials covering cracking including:

301-16
Specifications for
Structural Concrete

350.5-12
Specifications for
Environmental
Concrete Structures

On-Demand Courses Offered Through ACI University:

- ✓ ACI 301-16 Specifications for Structural Concrete (Parts 1, 2, and 3)
- ✓ On Demand Course: ACI 318 - What's in Your Spec?
