

Anchorage Design Certificate Program

ACI Certificate Programs are designed to provide concrete professionals with in-depth knowledge about particular topics in concrete materials, design, and/or construction by following a defined course of study. Once a course of study for a certificate program has been completed, the participant can request to receive a certificate through ACI University.

The Anchorage Design Certificate Program covers the basic design principles for anchorage to concrete, the background of ACI 318, Appendix D (currently ACI 318, Chapter 17), example design problems for single anchor applications, and an understanding of post-installed anchor qualification.

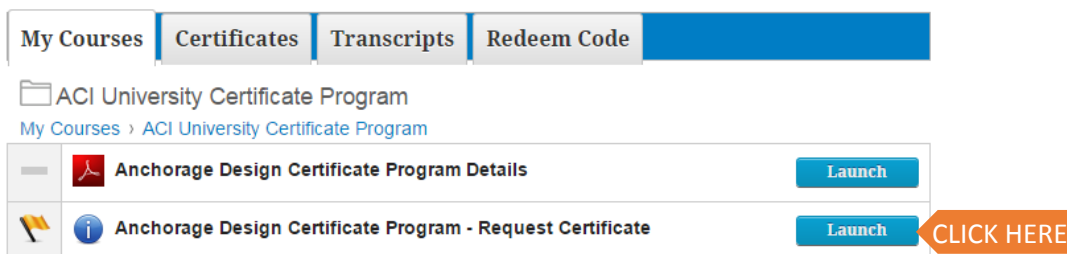

A program certificate is awarded after completion of the following required courses:

- Anchorage to Concrete (7.5 hrs)
- Certified Adhesive Anchor Installers (1.0 hr)
- Adhesive Anchors: Reliability, Environmental Exposure, and Hole Preparation (1.0 hr)
- Adhesive Anchor Installation (1.0 hr)
- Qualification of Post-Installed Adhesive Anchors (Part 1) (1.0 hr)
- Qualification of Post-Installed Adhesive Anchors (Part 2) (1.0 hr)
- Qualification of Post-Installed Adhesive Anchors (Part 3) (1.0 hr)
- Qualification of Post-Installed Mechanical Anchors (Part 1) (1.0 hr)
- Qualification of Post-Installed Mechanical Anchors (Part 2) (1.0 hr)
- Adhesive Anchor Installer Certification Training (2.5 hrs)

Program Guidelines:

- Completion of each course requires an 80% passing score on the course exam.
- All course completion certificates must be earned within a maximum period of 2 years.
- Courses that are updated will still count toward the certificate program as long as they have been completed within the 2-year timeframe.
- Any course completed outside the 2-year timeframe must be retaken using the current version of the course.
- Courses must be completed by one individual using the same username.
- Access to ACI documents not included with the course may be required.
- Once the course of study has been completed, a program certificate can be requested through ACI University (My Courses tab).
- ACI reserves the right to update courses and change certificate program requirements at any time.
- ACI reserves the right to revoke a certificate or discontinue a certificate program for any reason.

To Obtain Certificate:

The screenshot shows a navigation bar with tabs: My Courses, Certificates, Transcripts, Redeem Code, and a blue bar. Below the navigation bar, there is a breadcrumb trail: My Courses > ACI University Certificate Program. A table lists two items:

Item	Action
Anchorage Design Certificate Program Details	Launch
Anchorage Design Certificate Program - Request Certificate	Launch

An orange arrow points to the 'Launch' button for 'Request Certificate' with the text 'CLICK HERE'.
