ACI Students Competition

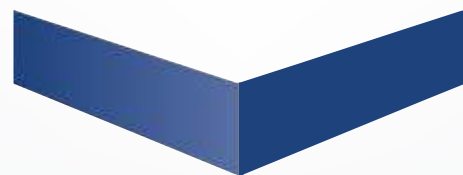

Every year since 2012

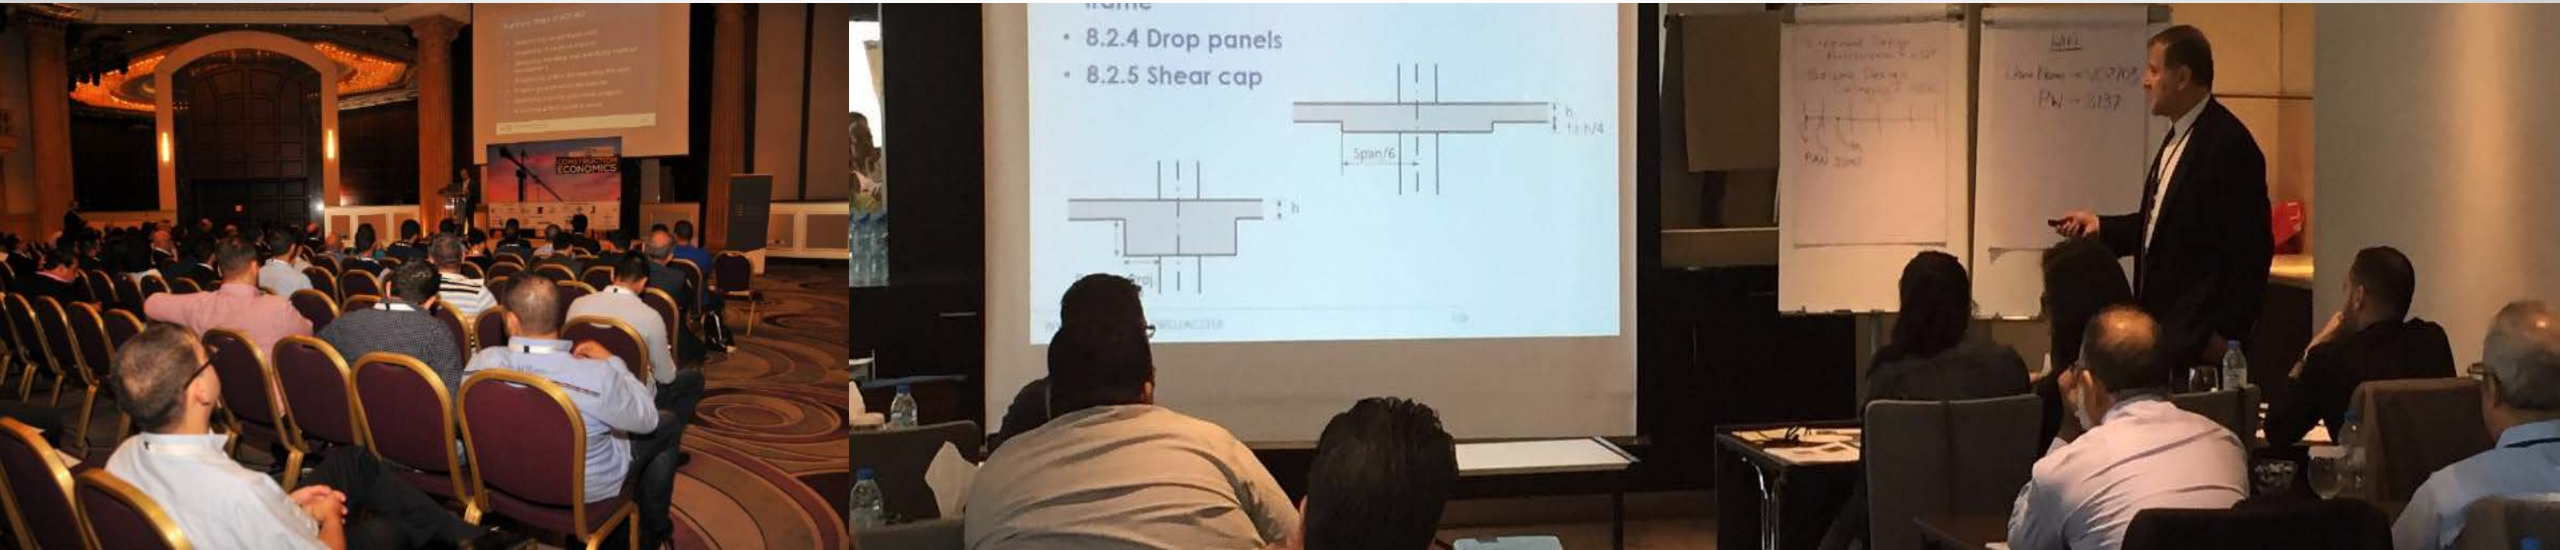

ACI Student's Competition

Trainings, Conferences & Seminars

ACTS & ACI Lebanon Chapter organizes the international conference “Future Concrete” and technical seminars like ACI 318-14 and ACI 562-16 with a purpose of presenting, discussing and explaining the latest advancements in concrete construction practices.

Future Concrete is considered as Middle East's main learning event for the construction industry and is top-billed by local and international industry experts who discuss the latest advances and new challenges in the construction industry.

Main Events in 2018

Seminars	Conferences	Students Competition
ACI 562-16 in Dubai	Future Concrete “Construction Durability & Concrete Repair”	ACI Egg Protection Device Competition - Qatar
ACI 562-16 in Qatar		ACI Eco Concrete Competition - Lebanon

In addition to Middle East, **ACTS** launched ACI certification programs for the 1st time in Zambia, Uganda, Rwanda, Mozambique, Kenya and Djibouti.
