american concrete institute SINGAPORE CHAPTER

4. What is the number one challenge facing your chapter and what are some potential solutions?

Challenge:

- Uncertainty in the local construction industry due to shortage of manpower, materials, demand & supply

Solution:

- Broaden the scope of ACI-SC education by adding more number of structured courses

- To move into neighboring countries using Singapore's brand name and credibility of ACI-SC

american concrete institute SINGAPORE CHAPTER

5. What could ACI do to help your chapter be more successful?

- Accreditation / Endorsement of courses / certifications done by ACI- Singapore Chapter
- Teaching resources for new courses (ACI Field technician Grade II, Concrete Inspector etc.,)
- Publication of overseas chapter activities in annual report /Concrete International on a regular basis (Enhancing Credibility and Awareness)

american concrete institute SINGAPORE CHAPTER

6. Our chapter's greatest successes

- Established credibility in the south east Asia region
- ACI-SC Field Concrete Testing Technician Course - recognized by local building regulator (BCA)
- Membership grown substantially with wide representation
- Minimum of five intakes from last few years.

Number of Certification 2017: 103.

Number of Certifications 2018: 59 (Until Sept)

- ACI-SC courses in Malaysia, Thailand & Philippines
- Courses are tailored to both BS EN and ASTM standards
