

Concrete Field Testing Technician ACI-ICT joint certification

Robert Lewis FAcI, FCS, FICT

Vice-President, The Institute of Concrete Technology;
Chair of the Technical and Education Committee.

Concept

ICT has the 'Academic' – ACI the 'Practical'

ACI uses ASTM Standards – and quite a few places don't.
ICT has seen a demand for 'Competence Testing'

> Integrate some of the courses!

ICT improves certification, ACI develops academic courses
and

both get global recognition

Some years later...

Revision Day

Practice Session

The nerves don't show...

Exemplary Performance

Results

- **Ten Candidates**
- **8 passes**
- **5 passes over 'Examiner Level'**

Recognition Level

- We now have, up and running:

ACI-ICT EN Standards Concrete Field Testing Technician

- The certification qualifies for 'TechICT' membership level.
- 'TechICT' will be open to ALL holders of ACI FTT Grade 1...

The Future

- ICT are starting to adapt more ACI certifications.
- ACI are looking to integrate the ICT academic courses into training and University courses in the USA.
- “ICT Advanced Concrete Technology Diploma” course (equivalent to an MSc) as potentially the qualification for “ACI Concrete Chartered Professional”...

Partnership works!

Thank you.
