On October 1, 2013 Concrete Cares invites you to share in supporting cancer awareness by placing a pink ribbon on your company and/or personal vehicle.

Our goal is to have concrete associations, contractors, supply companies, and individuals nationwide to identify a project and then to place decorative or colored concrete to promote cancer awareness and early detection. By pulling together as an industry, we can donate materials and labor/talent to create a concrete show piece for the cause. Concrete Cares ultimate goal is 50 pours in 50 states in 2013 and every year after until a cure is found.

Chances are you or someone you know has been affected by cancer. Who is your pink ribbon for?

This is Deb Wilson. She lost her battle with cancer on March 16, 2013.

We are Concrete and Concrete Cares!!!

For more information contact Mike Murray 913-634-2267

Concrete Cares T-shirts available for sale. Contact 913-422-4443
