

AGENDA
ACI COMMITTEE 221 – AGGREGATES
11:00 AM - 1:30 PM, Tuesday, March 27, 2018, Grand America (GA) - Murano
Salt Lake City, UT

1. Call to order and introductions
2. Review and approval of Fall 2017, Anaheim CA meeting minutes
3. Membership
4. 221.1 AAR document: Chapterwise discussion on revision and rewriting efforts
The changes (addition / removal of text based on updated information with citing updated references) will be highlighted for the following chapters with special discussion on the coverages between 201 and 221 documents
 - a. Chapter 2 - MANIFESTATIONS OF DISTRESS DUE TO ALKALI-SILICA REACTIVITY
 - b. Chapter 3 – ALKALI-SILICA REACTIVITY MECHANISMS
 - c. Chapter 4 – PETROGRAPHY OF ALKALI-SILICA REACTIVE AGGREGATE
 - d. Chapter 5 – MEASURES TO PREVENT ALKALI-SILICA REACTIVITY
 - e. Chapter 6 – METHODS TO EVALUATE POTENTIAL FOR EXPANSIVE ALKALI-SILICA REACTIVITY
 - f. Chapter 8 – ALKALI-CARBONATE REACTIVITY MECHANISMS

Assigning the responsibility for the remaining chapters of the AAR document to the interested volunteers
5. Revision and Rewriting Efforts for CHAPTER 6—MARGINAL AND RECYCLED AGGREGATES of the 221 main document
 - a. Developing a revised outline based on what 555 documents are covering and what Chapter 6 in the 221 main document needs to cover depending on the scope – the volunteers will propose the sequence of different sections based on what we think important and would be beneficial for our document
6. Revision / Rewriting Efforts for the other Chapters in the 221 main document
 - a. Updates on revision / rewriting for Chapters 1, 2, and 3 – the volunteers are requested to be present and provide the updates
 - b. Assigning the responsibility for the remaining chapters to the interested volunteers – a serious consideration will be made to promote the active Associate / Friend member(s) to voting member(s).
7. Other Business
8. Adjournment
