RE: ACI Committee 546
Repair of Concrete
Fall 2004

San Francisco, CA

Dear Voting Member or Associate Member:

Attached is the Agenda for the ACI 546 general meeting on October 25, 2004 in San Francisco, CA. The Repair Guide was approved by TAC with comments. Tony Murray and Paul Gaudette edited the document to incorporate the TAC comments and submitted to Staff. Our work regarding the update to the Repair Guide appears to be completed.

As you all know, the Material Selection Guide was rejected by TAC with suggested changes. It was not resubmitted because the sub-committee would still like to further improve the document. The status of that document will be discussed.

Mike Garlich has headed the sub-committee to update the Underwater Concrete Repair Guide. The updated version is nearly complete.

The planned dates for our meetings are:

546---General Meeting---Mon. 8:30am-11:30am.
546-A---Underwater Repair---Sun. 11:30am-1:00pm.
546-B---Material Selection Guide---Meeting was cancelled
546-C---Repair Guide---No meeting was scheduled
E706---EAC RAP---Sun 11:30am-1:00pm.

I look forward to seeing you in San Francisco.

Very truly yours,

Jay H. Paul, Chairman
ACI Committee 546
