

AGENDA
for the ACI 349 Subcommittee 2

10:00 to 1:00 PM, Sunday, October 15, 2000
Parlor 5, Westin Harbor Castle, Toronto, Canada

1. Status of the Review for ACI 349/349R

to address revisions of 318-99 (Chapters 7-11, 13-19, 21, and Appendices A, C, D and E).
The input on Chapter 21 and Appendix C has not been received. The proposed changes for the ballot will be compiled after all reviews are received.

2. Status of Technical Report, ACI 349.5R-xx

Joshi has written letters of inquiry to Professor Fowler, Chairman, ACI Concrete Research Council for potential guidance and help from the council on two issues:
Thermal Effects on Nuclear Power Plants, (related to ACI 349.1R) and
Methodology for Capacity Side Fragility.

3. NRC DG-1098

Draft Regulatory Guide (Proposed revision 2 to Regulatory Guide 1.142)
The reviews in item 2 need to be “re-reviewed” in this context, if required.
The subcommittee input on this item is required.
Copies of DG-1098 may be obtained through the NRC website (<http://www.nrc.gov>), then “search”.

4. IBC 2000

The reviews in item 2 need to be “re-reviewed” in this context, if required.
The IBC has taken some exceptions to ACI 318. While reviewing 318-99 we need to be cognizant of these exceptions.

5. Other Items.
