Kansas City, MO  
C-4300C

Type of meeting: Fall 2005 Convention - Committee 117 Meeting

## Agenda topics

8:30 – 8:40	<b>Introductions and sign-in sheet</b> <ul style="list-style-type: none"><li>• <b>Old Business: Meeting Minutes from NYC</b></li></ul>	All
8:40 – 12:00	<b>Balloted ACI 117</b> <ul style="list-style-type: none"><li>• Review and resolve Negatives</li><li>• Discussed other editorial comments</li></ul>	All
12:00 – 12:10	<b>BREAK</b>	
12:10 – 12:50	<b>Task Group – Measurement Protocol</b> <ul style="list-style-type: none"><li>• Update from Richard Knox of JT Wimsatt:</li><li>• From NYC:<ul style="list-style-type: none"><li>○ Discuss Intent of TG – Find every tolerated item referenced in 117 and translate these items into a real world case study of how you build and therefore reliably measure this tolerance. Then develop a written procedure with where you measure, how many measurements are needed, what equipment you use, and what is the relative accuracy of these measurements.</li><li>○ Identify TG members – It is recognized that most members of the committee will be involved in this effort. It is also recognized that we will need additional expertise not currently available within the existing committee members. Members are encouraged to recruit new members in specialty areas such as precast, window walls.</li><li>○ Create measurement categories needed</li></ul></li></ul>	
12:50 – 1:30	<b>New Business</b> <ul style="list-style-type: none"><li>• Establish a New Task Group to investigate the relationship of tolerated items.</li><li>• Identify Task Group Leader and TG members</li><li>• Discuss TG goals and timeline</li></ul>	

1:30 – 2:00 **Other New Business Items**

Notes:
