

ACI Committee 209 – CREEP AND SHRINKAGE IN CONCRETE

ACI Fall 2021 CONVENTION

209 Virtual Meeting – 10/18/2021

2:00 PM-EST – 4:00 PM-EST – GotoMeeting

AGENDA

1. Call to Order (Hubler)
2. Welcome and Introduction of Members (Hubler)
3. Announcements
 - Changes in membership (Hedegaard)
 - Review of participation (Hedegaard)
4. Status of reports and sub-committee activities
 - ACI 209.3R-XX. “Analysis of Creep and Shrinkage Effects in Concrete Structures” (Ranzi, 209)
 - ACI 209.2R-08 “Guide for Modeling and Calculating Shrinkage and Creep in Hardened Concrete” (D'Ambrosia, 209-0C)
 - ACI 209.4R-XX “Test Methods for Creep and Shrinkage” (Nassif, 209-0E)
 - ACI 209.5R-XX “Rate type Models for the Analysis of Creep and Shrinkage” (Wan-Wendner, 209-0D)
5. Research and Industry presentations
6. New Business
7. Adjournment
