

AGENDA

ACI-ASCE Committee 421 Design of Reinforced Concrete Slabs

2002 ACI Spring Convention
Detroit, Michigan

Wednesday, April 24, 8:30-11:30 A.M.
Davinci Room, Marriott Renaissance Center

1. Welcome members and guests. Introduce Ted Krauthammer as the new Chairman.
2. Review minutes of Fall 2001 Convention in Dallas.
3. Update on ACI 421 report on "Seismic Design of Slabs for Punching Shear". Discuss TAC comments and what action we want to take as a committee regarding re-submittal.
4. Update on ACI 421 report on "Design of Slabs Subjected to Dynamic Forces" by, Ted Krauthammer, and Stan Woodson.
5. Presentation on slab tests subjected to impact loads by Stan Woodson.
6. Update on the 445 subcommittee on Punching Shear by liaison member Scott Alexander.
7. Discuss Technical session on the Design of Post-Tensioned Flat Slabs, which will take place in the afternoon. Hopefully all of the committee members can attend.
8. Discuss any new business.
9. Adjourn.
