

## AGENDA

### ACI-ASCE/SEI Coordination Task Group

Sunday, October 16, 2011  
7:00 to 7:30 pm  
Location: Via Vite Restaurant  
Cincinnati, OH

#### Members

---

Sanders, David H (Chair), Chair; Kreger, Michael E, ACI; Lange, David, ACI; Robert T. Leon, SEI; Jennifer Goupil, SEI; Leshko, Brian, SEI; Khaled Nahlawi, ACI (Secretary)

#### 1. Introduction

**Action:** Chair Sanders is asked to make an introduction.

#### 2. Report on CCMS activity

##### 2012 Structures Congress

- a. Background: ACI committees participating at 2011 Structural Congress are: 343 concrete Bridge design, 408 Bond Development, 445 Shear and Torsion, 446 Fracture Mechanics, 447 Finite Element

**Report:** David Sanders

- b. Background: SEI has established a process for including SEI committee sessions in the annual program; CCMS has been invited to submit a mini-track to the 2013.

**Report:** Jennifer Goupil

#### Biannual Reports

**Background:** Chair receives biannual reports on the joint committee activities from ACI. The reporting should be comprehensive and address the activities between the two organizations. Currently the reporting addresses ACI committee activities at conventions only and does not address the joint committee activities.

- ACI should enhance its reporting to reflect the participation of ASCE at the committee meetings and its involvement in producing the joint ACI-ASCE reports and documents.

- The reporting should reflect ACI participation at the structural congress.

**Action:** David Sanders/Jennifer Goupil.

### 3. Report on ACI/ASCE Joint Committees

#### a. ACI 216

**Background:** ASCE to examine the process for ASCE 29 to reference ACI 216 document. ACI 216/ASCE 29 Chair Venkatesh Kodur agreed to work towards removing inconsistencies between ASCE 29 and ACI 216 after the current cycle; both standards will be final next year and he will begin work of combining documents in 2013.

**Action:** Jennifer Goupil to work with Kodur and ensure implementation of plan. Jennifer Goupil to report.

#### b. ACI 335

**Background:** Committee 335 requested the use of “Guidelines for Design of Joints between Steel Beams and Reinforced Concrete Columns,” Journal of Structural Engineering, Vol 120, No. 8, August 1994, pp 2330-2356 as basis for their new document.

**Action:** Committee was asked, if possible, to reference the paper. Khaled Nahlawi to report on what the publishing intent is for the new document; does committee 335 want to publish and sell as a Guideline thru ASCE, ACI or re-publish as a journal article?.

#### c. ACI 343

**Background:** ASCE provides funds to committee members to attend meetings, but not to members at subcommittee or task level. Jim Rossberg to review an e-mail sent by Nur Yazdani, ACI 343 chair, to Julio Ramirez, ACI-ASCE/SEI chair.

**Action:** Jennifer Goupil to report on her review of the e-mail sent by Nur Yazdani to Julio Ramirez.

#### d. ACI 369

**Background:** ASCE Sergio Breña sent names of ACI 369L subcommittee that would feed information from ACI 369 to ASCE 41. ACI 369 works half a cycle ahead of ASCE 41 and submits changes to ASCE 41 to be incorporated into the standard.

**Action:** David Sanders to check with Ken Elwood of ACI 369 on his perspective how the system is working with ASCE 41 with the possible intent of using this process for ACI 216 to feed into ASEC 29. David to report.

**4. T.Y. LIN Award**

**Background:** Robert Leon suggested appointing a member from TAC or ACI 423 with structural background to serve on the TY LIN award committee.

**Action:** Khaled Nahlawi to report.

**5. Other Items**
