- J) 551 Tilt-up Concrete Construction (Ed McGuire)
- K) 640 Finisher Certification (Bob Simonelli)
- L) ??? Others that may have need or ties to 302

5) Old Business:

Reports from task groups for ongoing research.

- A) Bill Phelan----Concrete slabs over vapor retarders/barriers.
- B) Peter Craig----Avoiding moisture related problems.
- C) Darryl Manuel----Liquid surface treatment standard.

Art McKinney----- Update on sweating floor issues.

6) New Business:

- A) Terry Fricks has asked for some time to discuss shake –on hardener floor construction.
- B) Discuss where we are and where we are headed with the recent submission of the document to TAC.
- C) Discussion on the 302 2R document that we will be sending to TAC after this meeting.
- D) The floor will be open for general discussion of any topic that those attending would like to discuss and or have the members look into. We will limit this to 20 minutes per topic if it looks like we have a lot of items to discuss. This will be a good time for anyone to discuss an ongoing problem or something new that might be occurring. I will ask anyone who would like to be part of this forum to contact me right away so I can create an agenda for the committee. This will be a great time for the members to voice their concerns on any topic that relates to our committee.

7) Final Discussions:

8) Adjourn:
