

ACI 310-0J Polished Finishes
2014 Fall Agenda
Tuesday October 28, 2014
10:00 - 11:30 AM
EMBASSY Room (Hilton Washington) Washington, D.C.

1. Call to Order
 - a. ACI 310-0J is a subcommittee of ACI 310 Decorative Concrete
 - b. Establish quorum through self-introductions

2. Approval of Minutes
 - a. Review/correct and approve minutes of previous meeting

3. Committee Activities
 - a. Old Business
 - i. Collecting Contributions
 - ii. Existing specification templates
 - iii. Acknowledge contributions to date. Concatenation and consolidation submissions solicited for discussion at next meeting.
 - b. New Business
 - i. Develop reference list of relevant manufacture certified ASTM specifications and compliance methods
 - ii. Develop reference list of post installation proof of compliance ASTM specifications and methodologies
 - iii. Develop and identify research proposal requests for post installation, proof of compliance testing to validate manufacture's certifications and installation compliance for durability.

4. Next Meeting Goals
 - a. Innovative proposals for selective integration of Performance and Descriptive elements within one specification.
 - i. Consider how to integrate post placement / post installation testing into specification. If testing does not currently exist, create place holder within specification in anticipation of standard development.
 - b. Innovative proposals for linking relevant specification elements dynamically to ACI, ASTM or other nationally recognized organizations.
 - c. Collaboration with:
 - i. AIA
 - ii. CSI (CCS Certification)
 - iii. ASCC
 - iv. CPAA
 - v. CSDA
 - d. Specification coordination & integration concerns, open items:
 - i. Pour and finish considerations/placement specifications for polished flatwork (design of the polishing canvas: mix design, flatness, etc.)

- ii. Curing (ACI 308, ACI 310-TG1 Curing Decorative Concrete)
- iii. Shrinkage and cracking (301G - Shrinkage Compensating Concrete and Industrial Floor Slabs)
- iv. Suspended slabs
- v. Silicates
- vi. Repair and Rehabilitation
- vii. Maintenance and possible collaborative with cleaning organizations
- viii. Consider use of a decision tree for guiding end users to determine gloss, aggregate, color, needs, expectations, maintenance recommendations, etc.
- ix. Testing methods
 - 1. Manufacturers qualification testing
 - 2. Compliance testing
 - 3. Research
- x. Others

5. New Business

6. Adjourn

Initial roster for ACI 310-0J Polished Finishes (16 Voting Members)

Vermillion, James

Barnes, Jason

Blackburn, Nate K

Bowman, Blaine Andy

Bowman, Roy B

Harrison, Patrick J

Harvey, Roy E

Linn, Michael A

Manuel, Darryl

Metzger, Scott C

Mohler, Nate

Reardon, Joe A

Rowland, Larry

Stephenson, David E

Sutton, Cori E

Viva, Juan
