

## **ACI 374 Committee Meeting**

*Performance-Based Seismic Design of Concrete Buildings*

Spring Convention 2015 in Kansas City, MO

Date: Monday April 13, 2015

Time: 8:30 AM to 12:00 PM

Room: M-BASIE C

### **Draft Agenda – v1**

1. Welcome and introductions – **All**
2. Approval of meeting agenda – **All**
3. Approval of minutes from the Washington D.C. meeting – **All**
4. Membership and Task Group Updates – **Dragovich**
5. Status Update: “Methodology or Analysis, Design and Assessment of RC Structures” (374.ZR) – **Dragovich/Sasani**
6. Transfer of the ACI 374.1 document to ACI committee 550 – **Dragovich/Browning**
7. TAC review of Technotes 374.AT & 374.YT (Nonlinear Modeling Parameters) – **Kim/Hagen**
8. Update of ITG-4.3R-07 “Report on Structural Design and Detailing for High-Strength Concrete in Moderate to High Seismic Applications” – **Ibarra**
9. Status Update: “Summary of PBSO Guideline Documents” – **Hueste**
10. Coupling beam modeling parameters – **Brienen**
11. Walls – **Wallace**
  - a. Recent research developments
  - b. Technote/Report: “Wall Shear Behavior, Modeling and Design”
12. Concrete Research Council Research Needs Statement: A request to ACI 374 – **Dragovich/All**
13. Future committee directions – **Dragovich/All**
14. Other Business
15. Next Meeting
16. Adjournment
