

ACI Committee 440D – FRP Research

Washington DC - Tuesday March 16 – 10:30-noon Caucus

Agenda

1. Welcome and introductions
2. Approval of Agenda
3. Approval of minutes from Boston meeting
4. Planning and Organization of NSF-sponsored Research Workshop
5. New Business
6. Adjourn

NSF has approved the Research Workshop. Due to the relatively late approval, the Workshop, which was planned for the Washington meeting, will be held later in 2004.

Members of Committee 440 will be meeting Saturday March 13 in Washington to address planning and organization for the workshop. Anyone planning on being in Washington and willing to volunteer to assist in planning this workshop is encouraged to contact Dr. Porter or Dr. Harries and join us on Saturday.
