

# AGENDA: ACI 238

## Workability of Fresh Concrete

ACI Spring Convention | Milwaukee, WI | Tuesday, April 19, 2015

C-203 A | 8:00 – 10:00 am

- Introductions
- Approval of minutes from Fall 2015 meeting
- Membership update
- Update on Student Workability Competition – Subcommittee 238A (Hu)
- ACI 238.1R-08 State of the Art Report: discussion of whether to re-approve, revise, or withdraw (req'd within 8 years of adoption)
- New documents
  - 238.YT: TechNote: Segregation (Ferron)
  - 238.ZT: Tech Note: Automatic Methods to Measure Concrete Workability in a Truck (Libre)
  - Concrete International article: ABC's of Rheology (Ferraris)
- Rheometer Reference Material (Ferraris)
- Sessions
  - Current Convention
    - Thixotropy of Concrete - How it Can Help, Spring 2016 - Milwaukee, WI, Wang and Feldman
    - Concrete Consolidation in the 21st Century, Spring 2016 - Milwaukee, WI (CO-SPONSOR)
  - Preliminary Approval (request final approval by end of convention for Fall 2016)
    - Do We Understand the Workability of Concrete as Much as we Think? Fall 2016 - Philadelphia, PA (Daczko, Ozyildirim, and Khayat)
    - Innovations in SCC Rheology, Spring 2017 - Detroit, MI (Feys) (CO-SPONSOR)
  - No Approval (request preliminary approval by end of convention)
    - Why Workability Matters to Contractors, Fall 2016 - Philadelphia (Edwards)
    - Slump is So Old Fashioned, TBD (Ferraris, Tanesi)
- Liaison with Other Committees

Committee Name	Number	ACI 238 Member
Pumping	211P	Feys
Formwork	347	Khayat
SCC	237	Khayat
Grouting	552	Sonebi
Proportioning	211	Koehler

Fibers	544	Daczko
Performance Criteria	329	Edwards
Pavements	325	Bui
Measuring, Mixing, Transporting, and Placing Concrete	304	Ferraris
Consolidation	309	Ferraris, Feys
Silica Fume	234	Khayat
Ultra High Performance Concrete	239	
Construction of Concrete Floors	302	
Aggregates	221	
Nanotechnology	241	Sonebi

- New business
- Old business
- Adjourn
