

aci CONCRETE
CONVENTION

THE WORLD'S GATHERING PLACE FOR ADVANCING CONCRETE

INTERNATIONAL LUNCH

SUNDAY, OCTOBER 29, 2023

11:30 AM – 1:30 PM

\$50 USD PER PERSON

Standards Crossing Borders (What the Heck is a Roll-a-Meter?)

This presentation will look at the problems many organizations face as the world gets smaller and people are working in regions where standards are not what they are used to:

- How do you balance the differences between local standards and international ones—or even project-specific ones?
- How do you stop your engineers from arguing over test procedures?
- How are ACI and its partners working to level the playing field?

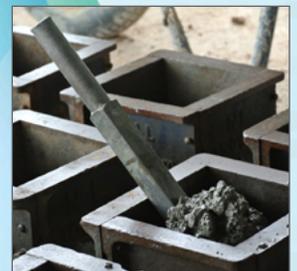

An example of a “clash of standards”—and the steps that resolved the situation—will be related, and then how transferring back to “home ground” helped improve understanding of what needs to be considered when standards cross borders.

Robert Lewis is a
Technical Marketing
Manager – Silica Fume
at Ferroglobe

Larry Taber is a Senior
Structural Engineer and
Field Project Coordinator
at Black & Veatch
