REPORT ON PERVERIOUS CONCRETE—ACI 522R-10

This report provides technical information on pervious concrete’s application, design methods, materials, properties, mixture proportioning, construction methods, testing, and inspection. Available in hard copy or PDF format.

Order Code: 52210.CI
Pages: 38
Prices: $67.50 (ACI members $41.00)

REPORT ON THE PHYSICAL PROPERTIES AND DURABILITY OF FIBER-REINFORCED CONCRETE—ACI 544.5R-10

This document addresses the physical properties and durability of fiber-reinforced concrete (FRC). The various properties addressed and the wide selection available in formulating matrix systems allow performance-based specification of concrete materials using fibers to become a viable reality. The objective of this report is to provide a historical basis about current knowledge for concrete professionals to use in tailoring new, sustainable, and durable concrete mixtures. Available in hard copy or PDF format.

Order Code: 544510.CI
Pages: 31
Prices: $62.50 (ACI members $38.00)

DESIGN GUIDE FOR TILT-UP CONCRETE PANELS—ACI 551.2R-10

This guide presents information to expand on the provisions of ACI 318, Section 14.8, applied to the design of site-cast precast or “tilt-up” concrete panels, and to provide a comprehensive procedure for the design of these important structural elements. In addition, this guide provides design recommendations for various support and load conditions not specifically covered in ACI 318. Included are design guidelines for in-plane shear. Available in hard copy or PDF format.

Order Code: 551210.CI
Pages: 59
Prices: $80.50 (ACI members $49.00)

2010 MANUAL OF CONCRETE PRACTICE (MCP)

The American Concrete Institute’s 2010 Manual of Concrete Practice contains over 195 ACI committee standards and reports. ACI’s Manual of Concrete Practice is the most comprehensive concrete reference set available. It contains all of the widely used ACI concrete and masonry code requirements, specifications, guides, and reports. Additionally, it includes information about code requirements, deflection, cracking, durability problems, temperature control, nondestructive testing, and hundreds of other topics. A complete listing of publications included in the 2010 edition and additional optional formats including online subscription, multi-user license, and more is available at www.concrete.org or by calling (248) 848-3800.

FIBER REINFORCED CONCRETE IN PRACTICE—SP-268 CD-ROM

This CD-ROM consists of 14 papers that were presented at ACI conventions in Charlotte, NC, and Denver, CO, in 2006. Selected examples of FRC applications highlighted in this special publication include slabs-on-ground, jointless slabs, thin section composites, prefabricated modular housing elements, concrete buried structures, concrete infrastructure repair, fire-resistant concrete, decorative concrete, and shotcrete.

Order Code: SP268CD.CI
Format: CD-ROM
Prices: $90.50 (ACI members $55.00)

To order new publications, use the form on the Bookshelf page in the back of this magazine. You may contact ACI for additional information by phone at (248) 848-3800 or go to our online bookstore at www.concrete.org.
CONCRETE: THE SUSTAINABLE MATERIAL CHOICE—SP-269 CD-ROM

This CD-ROM consists of seven papers that were presented by ACI Committees 130 and 233 at the ACI Spring Convention in San Antonio, TX, in 2009. Topics include performance-based specifications for concrete to advance sustainable development, supplementary cementitious materials for sustainability, and cementitious blends and their impact on sustainable construction.

Order Code: SP269CD.CI
Format: CD-ROM
Prices: $55.50 (ACI members $34.00)

THE SUSTAINABLE CONCRETE GUIDE—STRATEGIES AND EXAMPLES, PUBLISHED BY U.S. GREEN CONCRETE COUNCIL, 2010

The first-ever comprehensive resource on concrete and sustainability, this book provides insight on specific strategies for the best use of concrete in high-performance, long-lasting green buildings. Included are case studies, technical data and references, and numerous practices that can be implemented immediately.

Order Code: SCG1.CI
Pages: 89
Prices: $75.00 (No discount on industry publications)
