

Public Discussion

The ACI draft standard open for public discussion that is being processed can be found at www.concrete.org/discussion. This is not yet an official ACI standard.

Document number	Title	Open for discussion	Discussion closes
369.1	Code Requirements for Seismic Evaluation and Retrofit of Existing Concrete Buildings and Commentary	4-10-2017	5-25-2017

ACI 369.1 is referenced by ASCE/SEI 41. That standard is currently open for public comment at ASCE.

Proposed Standards

ACI 369.1 “Code Requirements for Seismic Evaluation and Retrofit of Existing Concrete Buildings and Commentary”

The ACI Technical Activities Committee (TAC) approved processing the subject document through ACI’s Standardization Procedure in April 2016 as did the ACI Standards Board in March 2017.

The document appears on the ACI website, www.concrete.org/discussion.

Pertinent discussion will be available on ACI’s website and announced in a future issue of *Concrete International* if received no later than May 25, 2017. Comments should be e-mailed to discussion@concrete.org.

ACI UNIVERSITY

CERTIFICATE PROGRAMS

In-depth courses of study and the ability to earn a credential demonstrating your commitment to expanding your knowledge. Programs include:

- Anchorage Design
- Concrete Fundamentals
- Concrete Repair Application Procedures
