

# Public Discussion

The ACI draft standard open for public discussion that is being processed can be found at [www.concrete.org/discussion](http://www.concrete.org/discussion). This is not yet an official ACI standard.

## Public Discussion and Closure Specification for Inspection of Concrete Construction

The ACI Technical Activities Committee (TAC) approved the draft standard subject to satisfactory committee response to TAC comments in April 2016. The committee responded adequately to TAC's comments and all balloting rules were adhered to. In October 2016, the Standards Board granted approval to release the draft standard for public discussion and to process it as an ACI standard. Public discussion was announced on October 16, 2016, and closed on December 10, 2016. The committee responded to the public discussion. TAC reviewed the closure and approved it in March 2018. The Standards Board approved publication of the ACI standard in March 2018.

The public discussion and the committee's response to the discussion are available on ACI's website, [www.concrete.org/discussion](http://www.concrete.org/discussion).

## FREE Education Resources

### Online Education Presentations

Browse from a large selection of recorded presentations from ACI Conventions and other concrete industry events available for viewing online.

Presentations are also available on ACI's YouTube Concrete Channel

[www.concrete.org/education](http://www.concrete.org/education)

### Documents

Visit the ACI Store at [www.concrete.org/store](http://www.concrete.org/store) and download free documents from ACI's Educational Committees.

These documents, available in digital editions, cover:

- Materials
- Design examples for concrete structures
- Repair application procedure
