

Public Discussion

The ACI draft standard open for public discussion that is being processed can be found at www.concrete.org/discussion. This is not yet an official ACI standard.

Public Discussion and Closure Specification for Inspection of Concrete Construction (ACI 311.7-18)

The ACI Technical Activities Committee (TAC) approved the draft standard subject to satisfactory committee response to TAC comments in April 2016. The committee responded adequately to TAC's comments and all balloting rules were adhered to. In October 2016, the Standards Board granted approval to release the draft standard for public discussion and to process it as an ACI standard. Public discussion was announced on October 16, 2016, and closed on December 10, 2016. The committee responded to the public discussion. TAC reviewed the closure and approved it in March 2018. The Standards Board approved publication of the ACI standard in March 2018.

The public discussion and the committee's response to the discussion are available on ACI's website, www.concrete.org/discussion.

How to Become ACI-CERTIFIED

If you're a craftsman, technician, or inspector, earning an ACI Certification provides you with the credentials to build the best concrete structures in the world. If you're a specifier or owner, you know many codes require ACI-certified personnel on the jobsite. Visit concrete.org/certification.

TESTING/TRAINING CENTER

Located across the globe, ACI has partnered with these groups to administer written and performance exams throughout the year

PROMETRIC TESTING CENTERS

Set your date and time for convenience when taking written exams

CCRL TOURS

Performance exams can be administered at the same time the CCRL is evaluating your lab
