

Public Discussion

ACI draft standards open for public discussion that are being processed through ACI's ANSI-approved standardization procedures can be found at www.concrete.org/discussion. These are not yet official ACI standards.

Public Discussion and Closures

The public discussion and the committee's response to the discussions are available on ACI's website, www.concrete.org/discussion.

Specifications for Repair of Structural Concrete in Buildings (ACI 563)

The ACI Technical Activities Committee (TAC) approved the draft standard subject to satisfactory committee response to TAC comments in July 2017. The committee responded adequately to TAC's comments and all balloting rules were adhered to. In January 2018, the Standards Board granted approval to release the draft standard for public discussion and to process it as an ACI standard. Public discussion was announced on January 29, 2018, and closed on March 15, 2018. The committee responded to the public discussion. TAC reviewed the closure and approved it in August 2018. The Standards Board approved publication of the ACI standard in August 2018.

LEARN MORE ABOUT FIBER-REINFORCED POLYMERS

ACI offers dozens of FRP resources, including codes, standards, SP documents, published journal articles, and ACI University on-demand courses.
