

# Public Discussion

ACI draft standards open for public discussion that are being processed through ACI's ANSI-approved standardization procedures can be found at [www.concrete.org/discussion](http://www.concrete.org/discussion). These are not yet official ACI standards.

Document number	Title	Open for discussion	Discussion closes
350	Code Requirements for Environmental Engineering Concrete Structures and Commentary	6/17/2019	8/1/2019

## Proposed Standards

### Code Requirements for Environmental Engineering Concrete Structures (ACI 350) and Commentary

The ACI Technical Activities Committee (TAC) approved processing the subject document through ACI's Standardization Procedure in July 2018 as did the ACI Standards Board in June 2019.

Therefore, this draft document was open for public discussion from June 10, 2019, until July 25, 2019. The document appears on the ACI website, [www.concrete.org/discussion](http://www.concrete.org/discussion).

Pertinent discussion will be available on ACI's website and announced in a future issue of *Concrete International* if received no later than July 25, 2019. Comments should be e-mailed to [discussion@concrete.org](mailto:discussion@concrete.org).

## Public Discussion and Closure

### Building Code Requirements for Structural Concrete (318-19) and Commentary

The ACI Technical Activities Committee (TAC) approved the draft standard subject to satisfactory committee response to TAC comments in October 2018. The committee responded adequately to TAC's comments and all balloting rules were adhered to. The Standards Board granted approval to release the draft standard for public discussion and to process it as an ACI standard. Public discussion was announced on December 21, 2018 and closed on February 4, 2019. The committee responded to the public discussion. TAC reviewed the closure and approved it on April 25, 2019. The Standards Board approved publication of the ACI standard on May 3, 2019.

The public discussion and the committee's response to the discussion are available on ACI's website, [www.concrete.org/discussion](http://www.concrete.org/discussion).

### Building Code Requirements for Concrete Thin Shells (ACI 318.2-19) and Commentary

The ACI Technical Activities Committee (TAC) approved the draft standard subject to satisfactory committee response to TAC comments in October 2018. The committee responded adequately to TAC's comments and all balloting rules were adhered to. The Standards Board granted approval to release the draft standard for public discussion and to process it as an ACI standard. Public discussion was announced on December 21, 2018 and closed on February 4, 2019. No public comments were received. The Standards Board approved publication of the ACI standard in May, 2019.

### Qualification of Post-Installed Mechanical Anchors in Concrete (ACI 355.2) and Commentary

The ACI Technical Activities Committee (TAC) approved the draft standard subject to satisfactory committee response to TAC comments in March 2018. The committee responded adequately to TAC's comments and all balloting rules were adhered to. The Standards Board granted approval to release the draft standard for public discussion and to process it as an ACI standard. Public discussion was announced on August 15, 2017 and closed on September 29, 2017. The committee responded to the public discussion. TAC reviewed the closure and approved it on March 21, 2019. The Standards Board approved publication of the ACI standard on April 8, 2019.

The public discussion and the committee's response to the discussion are available on ACI's website, [www.concrete.org/discussion](http://www.concrete.org/discussion).

## Construction Specification for Type EM (Epoxy Multi-Layer) Polymer Overlay for Bridge and Parking Garage Decks (ACI 548.8)

The ACI Technical Activities Committee (TAC) approved the draft standard subject to satisfactory committee response to TAC comments in October 2016. The committee responded adequately to TAC's comments and all balloting rules were adhered to. The Standards Board granted approval to release the draft standard for public discussion and to process it as an ACI standard. Public discussion was announced on December 7, 2018 and closed on January 21, 2019. The committee responded to the public discussion. TAC reviewed the closure and approved it on March 21, 2019. The Standards Board approved publication of the ACI standard on March 29, 2019.

The public discussion and the committee's response to the discussion are available on ACI's website, [www.concrete.org/discussion](http://www.concrete.org/discussion).

## Code Requirements for Evaluation, Repair, and Rehabilitation of Concrete Buildings (ACI 562-19) and Commentary

The ACI Technical Activities Committee (TAC) approved the draft standard subject to satisfactory committee response to TAC comments in October 2018. The committee responded adequately to TAC's comments and all balloting rules were adhered to. The Standards Board granted approval to release the draft standard for public discussion and to process it as an ACI standard. Public discussion was announced on December 7, 2018 and closed on January 21, 2019. The committee responded to the public discussion. TAC reviewed the closure and approved it on April 23, 2019. The Standards Board approved publication of the ACI standard on May 1, 2019.

The public discussion and the committee's response to the discussion are available on ACI's website, [www.concrete.org/discussion](http://www.concrete.org/discussion).
