

Public Discussion

ACI draft standards open for public discussion that are being processed through ACI's ANSI-approved standardization procedures can be found at www.concrete.org/discussion. These are not yet official ACI standards.

Document number	Title	Open for discussion	Discussion closes
548.X	Specification for Crack Repair by Epoxy Injection	9/20/2019	11/4/2019

Proposed Standard Specification for Crack Repair by Epoxy Injection (548.X)

The ACI Technical Activities Committee (TAC) approved processing the subject document through ACI's Standardization Procedure in March 2018 as did the ACI Standards Board in September 2019.

Therefore, this draft document is open for public discussion from 9/20/2019, until 11/4/2019. The document appears on the ACI website, www.concrete.org/discussion.

Pertinent discussion will be available on ACI's website and announced in a future issue of *Concrete International* if received no later than 11/4/2019. Comments should be e-mailed to discussion@concrete.org.

How to Become ACI-CERTIFIED

If you're a craftsman, technician, or inspector, earning an ACI Certification provides you with the credentials to build the best concrete structures in the world. If you're a specifier or owner, you know many codes require ACI-certified personnel on the jobsite. Visit concrete.org/certification.

Certification

TESTING/TRAINING CENTER
Located across the globe, ACI has partnered with these groups to administer written and performance exams throughout the year

PROMETRIC TESTING CENTERS
Set your date and time for convenience when taking written exams

CCRL TOURS
Performance exams can be administered at the same time the CCRL is evaluating your lab
