

Branum

ACI member **Clark Branum**, a noted decorative concrete speaker, trainer, and quality control manager, has joined the Technical Division of the American Society of Concrete Contractors (ASCC), St. Louis, MO, USA, as the Decorative and Polished Concrete Specialist. This role provides leadership, counsel, and direction for the Decorative Concrete Council (DCC) and the Concrete

Polishing Council (CPC). One of the key responsibilities is answering two technical hotlines, one for decorative concrete and one for polished concrete questions.

With over 40 years in the concrete industry, Branum is the Training and Technical Director for SUNDEK Products. He previously served as the Training and Specification Manager for Diamatic USA, National Training and Technical Development Director for L.M. Scofield Co., and Technical Director for Brickform Products. He began his career as a laborer and concrete finisher.

Branum is a member of Joint ACI-ASCC Committee C641, Decorative Concrete Finisher Certification; Joint ACI-ASCC Committee 310, Decorative Concrete; and Subcommittees 310-J, Polished Finishes, and 310-L, Liaison.

Foster

CTLGroup announced that **Peter Foster** assumed the role of Group Director for its Structural & Transportation Laboratory. Foster has developed and managed key lines of business in the laboratory for several years. His leadership will bring an enhanced level of service to CTLGroup's clients. The 11,000 ft² (1020 m²)

Structures & Transportation Laboratory is home to experts in structural testing and cutting-edge equipment suitable for testing large structural components. The team provides testing and analysis services for all things structural, from structural failures to rail components to product prototypes.

Environmental engineering and construction services firm Brown and Caldwell has promoted **Euan Finlay** from Senior Vice President to Chief Operating Officer. A senior executive with 25 years of experience, Finlay excels in leading organizations and teams to deliver excellence to clients while driving sustainable growth. Throughout his career, he has held executive roles in operations, design, and construction businesses focused on developing solutions for environmental, water, and wastewater infrastructure.

Votel

Tom Votel, Ergodyne President & CEO, was re-elected as Chair of the International Safety Equipment Association (ISEA). An ISEA Board member since 2011, Votel returns for his second 1-year term as Chair, having also been named to the seat in 2021.

Votel became Ergodyne's President & CEO in 1986 and went on to build the company into a trusted developer and innovator of specialized safety work gear. Now part of the Klein Tools Family of Companies, Votel and Ergodyne remain focused on the mission of protecting workers and boosting productivity across a diverse array of industries and jobsites.

Steele

Brokk, a manufacturer of remote-controlled demolition machines, has named **Troy Steele** as Regional Sales Manager for the western region of Canada. Steele has 16 years of experience in equipment sales and will serve Brokk customers across all industries, including demolition, construction, mining, cement, metal processing, and tunneling. He will also serve Aquajet Hydrodemolition

customers in Western Canada.

Before joining Brokk, Steele served as National Sales Manager for Cyclone Diamond Products Ltd., where he was responsible for all sales and leading the sales team in Canada. His other past positions include Manager of Business Development for Champion Group, District Manager for Wacker Neuson, and Account Manager for Hilti Canada.

Honors & Awards

Goloboski III

The Safety & Risk Management Council (SRMC) of ASCC announced that ACI member **Theodore Goloboski III**, CEO, Belfast Valley Contractors, Dundalk, MD, USA, received the ASCC Member Owner/Executive Safety Award for 2022. The award was presented at the association's annual conference in Cleveland, OH, USA. This award recognizes one owner/executive of a

contractor member company who displays a clear focus and passion for safety and provides leadership that creates a best-in-class safety culture.
