

# Calls for Papers

## Net-Zero Future 2024

**Meeting:** The First International Conference on Net-Zero Built Environment: Innovations in Materials, Structures, and Management Practices will be held June 19-21, 2024, in Oslo, Norway.

**Solicited:** The Net-Zero Future conference is an international event dedicated to advancing research, innovation, and collaboration in pursuit of a sustainable and net-zero carbon built environment. This inaugural conference aims to bring together leading experts, researchers, practitioners, and stakeholders worldwide to accelerate the transition toward a greener and more sustainable future. Participants will have the opportunity to explore a wide range of topics relevant to the net-zero agenda, including sustainable materials and construction techniques, energy-efficient building design, renewable energy integration, smart technologies, life-cycle assessment, policy frameworks, and community engagement.

The conference offers two tracks:

- Academic presentations—submission of abstract and full-text paper; and
- Project presentations—submission of title and a short description (does not require a scientific article). This route is suitable for presenting relevant projects, initiatives, and ideas.

**Requirements:** For more information, visit <https://netzfuture.com/abstract-submission>.

**Deadline:** Contributors who do not plan to submit a full-text manuscript can submit their abstracts until March 30, 2024.

**Contact:** <https://netzfuture.com/contact/>.

## World of Concrete 2025

**Meeting:** World of Concrete will be held January 20-23, 2025, at the Las Vegas Convention Center, Las Vegas, NV, USA.

**Solicited:** Presentations must be tailored for the concrete/masonry professional, showing evidence of material that will make a significant contribution to the development of attendees' professional capabilities and knowledge of the

field. Presenters with strong speaking experience and in-depth knowledge of topic and audience needs are invited to submit proposals.

Types of presentations accepted include well-defined learning objectives that can be readily implemented in the workplace; how-to sessions that stimulate and provide attendees with new skills, technology, or processes; and practical and forward-thinking content that will promote interactive exchange of ideas.

**Session Formats:** 3-hour seminars typically target field personnel seeking more in-depth and comprehensive information; 90-minute seminars are fast-paced and geared toward more experienced attendees such as owners and senior management.

**Requirements:** For more information, visit [www.worldofconcrete.com/en/education/topic-submissions.html](http://www.worldofconcrete.com/en/education/topic-submissions.html).

**Deadline:** Abstracts are due by April 8, 2024.
