EIGHT YEARS OF EXCELLENCE

Over the last 8 years, the Excellence in Concrete Construction Awards has grown into the Institute's premier awards program. Project submissions have increased, the judging panel has expanded, and local opportunities are gaining momentum.

This year, competitiveness of the program required a judging panel of 30 expert professionals (27 category judges and three overall judges). Our panel judged projects based on architectural and engineering merit, creativity, innovative construction techniques or solutions, innovative use of materials, ingenuity, sustainability and resilience, and functionality. Projects were submitted in the following categories:

- Low-Rise Structures
- Mid-Rise Structures
- High-Rise Structures
- Decorative
- Infrastructure
- Flatwork
- Repair and Restoration

The Excellence Awards has spurred the development of new local programs adopting the Excellence Awards name and branding.

2022 OVERALL JUDGES

Emily Guglielmo earned her bachelor's degree in civil engineering from the University of California, Los Angeles, Los Angeles, CA, USA, and her master's degree in structural engineering from the University of California, Berkeley, Berkeley, CA. She has nearly two decades of structural engineering experience, all with Martin/Martin, Inc. She began her career in their Denver, CO, USA-area office, and is currently a Principal with the firm, managing their San Francisco Bay Area office. Guglielmo has lectured on building code provisions nationally and internationally. Emily is the Vice Chair of the ASCE 7 Seismic Subcommittee and is the Chair of the NCSEA Wind Engineering Committee.

A licensed PE, SE, and CE, Guglielmo has received a number of awards, including SEI Fellow and the Susan M. Frey NCSEA Educator Award, for effective instruction for practicing structural engineers.

Stephen T. Ayers, the 11th Architect of the Capitol and President of The Ayers Group, LLC, is the Interim CEO of the National Institute of Building Sciences.

Ayers previously served as Chair of the NIBS Board from 2017 to 2018. He also served as Chair of the Construction Management Association of America and the Construction Users Roundtable.

On February 24, 2010, President Barack Obama nominated Ayers to serve as the 11th Architect of the Capitol. By May of that year, the United States Senate confirmed Ayers, and the President officially appointed him to a 10-year term as Architect of the Capitol.

Ayers was responsible for facilities maintenance and operation of the U.S. Capitol building and the operation and maintenance of 18.6 million square feet of buildings, including the House and Senate Congressional office buildings, Capitol Visitor Center, Library of Congress, U.S. Supreme Court Building, and Thurgood Marshall Federal Judiciary Building.

Michael J. Paul is ACI Vice President and a trustee of the ACI Foundation. In his day job, Paul is Principal Structural Engineer for Larsen & Landis, Inc., based in Philadelphia, PA, USA. In this role, he oversees the engineering, documentation, and management of structural engineering for commercial, institutional, industrial, recreational, and residential projects. Paul's experience includes troubleshooting, repair, restoration, and rehabilitation of existing concrete structures in addition to new structure design. A Fellow of ACI, Paul's leadership and volunteer efforts with ACI amass a long list. He most recently served as Chair of the ACI Membership Committee and on the ACI Board of Direction. His previous service to ACI, which extends nearly 40 years, includes Chair of the International Project Awards Committee and ACI Committee 124, Concrete Aesthetics, for which he continues to edit the "Notable Concrete" series produced for ACI conventions and excerpted in Concrete International magazine. In addition, he served on the editorial

review panel for both Sustainable Concrete Guides of the U.S. Green Concrete Council. He is a member or past member of several other ACI committees, including 120, History of Concrete.

George W. Seegebrecht – Master of Ceremonies

Seegebrecht has worked in the construction industry for over 34 years. The majority of his career has involved conducting troubleshooting of concrete and shotcrete problems. Seegebrecht is an active member and Fellow of ACI. He is Chair of Joint ACI-CRSI Committee C680, Adhesive Anchor Installer, and is a member of ACI Committees C610, Field Technician Certification; C630, Construction Inspector Certification; 506, Shotcreting; and 522, Pervious Concrete. He is also a member of the American Shotcrete Association (ASA), the International Concrete Repair Institute (ICRI), and ASTM International. Seegebrecht is a licensed professional engineer in 13 states. He is a regular speaker for educational seminars for the Portland Cement Association (PCA) and the University of Wisconsin – Madison. He has presented educational sessions at organizations such as CRSI, CSDA,

ICRI, and World of Concrete, as well as in-house programs for various clients. He is currently the Examiner of Record for the Illinois ACI certification program.

We're Building the Future

Mission: We make strategic investments in ideas, research, and people to create the future of the concrete industry

Through its councils and programs, the ACI Foundation helps to keep the concrete industry at the forefront of advances in material composition, design, and construction. Our focus:

Our Concrete Innovation Council identifies technologies and innovation that are aligned with ACI and industry strategies and helps facilitate their use when appropriate

Our Concrete Research Council advances the knowledge and sustainable aspects of concrete materials, construction, and structures by soliciting, selecting, financing, and publishing research

Our Scholarship Council supports our future concrete innovators and leaders by administering fellowships and scholarships to help bridge the financial gap for students

Our Veterans Rebate for ACI Certification program helps honorably discharged veterans and increases skills in the industry's workforce. ACICertification.org/veteranrebate
